BVORR provides a club house for its guests' use. The club house is a 1300 sq ft building with men's and women's bathrooms and showers. The club house used to be a local country store built around WW1 est 1915-1920.

- In addition to the bathroom facilities, BVORR guests use the club house to eat and store equipment while out on the trails.
- There is a large 5 acre gravel parking and staging area in front of the club house where tow rigs can be parked while wheeling.
- There are two articulation ramps available in the parking area.
- The club house can be rented separately for parties or special events, call for pricing.
- The facilities are secured by a locked gate.
- There is an air compressor available on site for guests to use.
